Mr. Benton stated that additional information is to be obtained, and this matter will be further discussed.

Mr. Benton stated that the committee discussed parish road damage from the 2015 flood event. He stated that the parish has been awarded approximately \$30 million from the Federal Emergency Management Agency, but the parish will be required to provide matching funds in the amount of \$8 million. He further stated that it is possible that the parish can apply for reimbursement of the \$8 million through the Restore Louisiana Program. Mr. Benton stated that the Road/Subdivision Regulations Committee is recommending that the police jury borrow the required \$8 million matching funds in order to move forward with parish road repairs as a result of the 2015 flood event. He stated that this matter will be further reviewed and presented for consideration at a later date.

Mr. Benton stated that the committee also discussed creation of an overlay-district for the Highway 80 area. He stated that in order to make any revisions to an existing subdivision, 100 percent approval is required from all subdivision lot owners. He further stated that a tract of land exists off Highway 80 from Bellevue Road to Princeton Road which is a platted subdivision from the 1920s to 1930s, but the subdivision was never developed. Mr. Benton stated that throughout the years, businesses began building on this tract of land. He stated that it would be impossible to obtain 100 percent approval from subdivision lot owners with the land being developed in this manner. He stated that in an effort to address this issue, an overlay-district is recommended for the Highway 80 area which would allow businesses to locate in these areas without being required to obtain 100 percent approval from property owners.

Mr. Benton stated that the committee discussed the Swan Lake Road improvements project and the expense of expanding sewer to a development by Mr. Warren Moore. He stated that it has been determined that a treatment plant will need to be installed for the development and plans for the treatment plant and sewer lift station will be required when the subdivision plat is presented to the police jury for consideration.

Mr. Benton stated that the committee discussed the need for a study to widen Palmetto Road. He stated that it was determined that the parish would be required to purchase approximately 22 parcels of land in order to widen Palmetto Road. Mr. Benton stated that Willis-Knighton Health System has donated the needed right-of-way to widen Palmetto Road where the Willis-Knighton Health System facility is being constructed. He stated that the parish plans to move forward with widening Palmetto Road where the donated right-of-way has been received from Willis-Knighton Health System.

Mr. Benton stated that the committee discussed Project No. 2020-132, West Linton Road Extension to Fairburn Avenue. He stated that Cypress Black Bayou Water System will need to close Linton Road from June 15<sup>th</sup> to June 22<sup>nd</sup> in order to install a new water line, weather permitting. He further stated that message boards will be provided to notify the public of the road closure, and notices will be provided to the news media.

Mr. Benton stated that Ms. Renee Hall attended the Road/Subdivision Regulations Committee to discuss sewer issues at Cypress Lake, including Turtle Creek Subdivision. He stated that this matter was taken under advisement.

He stated that this will allow the customer a six- month period to bring their delinquent accounts current. He requested that this payment plan calculation be included in the policies being drafted for the Board of Supervisors for the Consolidated Waterworks/Sewerage District No. 1 of the Parish of Bossier.

She stated that Mr. Hampton has made no effort to establish a payment arrangement and recommends that the sewer service be disconnected. Mr. Salzer stated that it is the recommendation of the Board of Appeals to disconnect sewer service at 212 Glendale Lane, Haughton, LA, resulting in the home being condemned and uninhabitable, unless payment of \$1,026.23 is received within 10 days. The customer will be responsible for any fees associated with the reconnection of sewer service. Sewer service will be disconnected on or about June 15, 2020.

**Motion was made by Mr. Salzer, seconded by Mr. Jorden, to uphold the recommendation of the Consolidated Waterworks/Sewerage District No. 1 Board of Appeals, to disconnect sewer service at 212 Glendale Lane, Haughton, LA, resulting in the home being condemned and uninhabitable, unless payment of \$1,026.23 is received within 10 days.**

Ms. Irby provided the board with information for Ms. Yvonne Barrier at 104 Pine Creek Drive, Haughton, LA. No one was present on behalf of the customer to discuss this matter. She stated that contact has been made with Ms. Barrier, but she has failed to make payments as agreed. Ms. Irby stated that Ms. Barrier has a past due amount of \$851.16 and is protesting the past due amount. She further stated that Ms. Barrier has requested multiple reports which have been provided to her. Ms. Irby stated that Ms. Barrier made a payment in October of 2019 in the amount of \$200.00, and the last payment received was in May of 2020 in the amount of \$500.00. Ms. Julie Gill stated that payment arrangements have been offered to Ms. Barrier, but Ms. Barrier has refused to make a payment arrangement.

Ms. Gill stated that all delinquent customers are sent monthly letters advising them of their past due balance and offering them payment arrangements. She stated that all delinquent customers are also provided with a letter advising them when a hearing is scheduled for the Consolidated Waterworks/Sewerage District No. 1 of the Parish of Bossier Board of Appeals to make a determination on their past due account.

Mr. Salzer stated that it is the recommendation of the Board of Appeals that a letter be sent to Ms. Yvonne Barrier at 104 Pine Creek Drive, Haughton, LA, stating that due to her recent payment in the amount of \$500.00 on May 22, 2020, towards her past due amount, it is requested that a payment arrangement be made immediately in order to bring her account current.

**Motion was made by Mr. Salzer, seconded by Mr. Rodgers, to uphold the recommendation of the Consolidated Waterworks/Sewerage District No. 1 Board of Appeals, that a letter be sent to Ms. Yvonne Barrier at 104 Pine Creek Drive, Haughton, LA, stating that due to her recent payment in the amount of \$500.00 on May 22, 2020, towards her past due amount, it is requested that a payment arrangement be made immediately in order to bring her account current or sewer service will be disconnected 10 days from the date of the letter.**

The Chairman called for public comment. There being none, **votes were cast, and the motion carried unanimously.**

Ms. Irby provided the board with information for Mr. Victor Al-Agha at 102 Satinwood Circle, Haughton, LA. No one was present on behalf of the customer to discuss this matter. She stated that Mr. Al-Agha has made a payment arrangement and made a payment of \$200.00 on June 1, 2020, and is due to make a payment of \$200.00 to \$300.00 today with the remainder of his past due amount being paid in July of 2020. The Chairman called for public comment. There being none, **votes were cast, and the motion carried unanimously.** This matter will be reviewed at a hearing on July 1, 2020, at 12:00 p.m. in the Bossier Parish Police Jury meeting room.

Ms. Irby provided the board with information for Ms. Tanikqa Thomas at 3320 Trailview Circle, Haughton, LA. Mr. Christopher Knight, 7301 Montclair Drive, Shreveport, LA, property owner of 3320 Trailview Circle, Haughton, LA, was present.

Mr. Knight stated that he received the letter notifying him of today's meeting yesterday afternoon as it was improperly addressed. He presented a copy of the lease agreement with the lessee which states that lessee is responsible for any and all utility charges during the term of the lease, including but not limited to, gas, electric, sewer, water, cable, telephone and similar utility expenses. He stated that the gentlemen in which Ms. Thomas resides with is the actual lessee of the property. Mr. Knight stated that he contacted the lessee last night, who is currently working in New Mexico and has been there for approximately two months, to discuss this matter. He stated that the lessee was unaware that Ms. Thomas was not paying the utility bills.

Mr. Knight stated that if Ms. Thomas has not been paying her water/sewer bill, the parish should have disconnected the water/sewer service prior to allowing the account to become delinquent in the amount of \$749.98. He stated that the lessee has never been late paying his monthly lease payment. He further stated that he provided the lessee with the telephone number to contact the billing department for the sewerage services.

Mr. Knight stated that his concern is the sewer being dug up on his property due to Ms. Thomas's failure to pay her utility bill. He stated that he is unsure of the process and stated that he would have been better prepared had he received his notice of this hearing prior to 5:00 p.m. yesterday.

Ms. Irby stated that a \$300.00 payment was received late last night, which leaves a balance owed of \$449.98.

Mr. Salzer stated that the parish does not own water service on some properties and therefore cannot simply cut off someone's water due to failure to pay their sewer bill. He stated that when the parish does not own the water, the only recourse the parish has when customers are delinquent on their account is to disconnect the sewer service by digging up the sewer. Mr. Salzer stated that a lessee is violating the terms of a lease agreement by being delinquent on their utility bills and there are actions that a landlord can take in this type of situation.

Mr. Knight stated that his concern is that there is currently a moratorium on cutting off utilities during the COVID-19 health crisis and asked how this affects the police jury's actions on delinquent accounts. Mr. Salzer stated that due to the current health crisis, no action would be taken against Mr. Knight.

Mr. Salzer stated that due to the payment of \$300.00 last night on the delinquent account, he recommends that a letter be sent to Ms. Tanikqa Thomas at 3320 Trailview Circle, Haughton, LA, stating that due to her recent payment in the amount of \$300.00 on June 2, 2020, towards her past due amount, it is requested that a payment arrangement be made immediately in order to bring her account current.

Mr. Jackson stated that the parish notifies landlords of delinquent water/sewer accounts when the parish does not own the water because the only way the parish can affect this is to disconnect the home from the parish's public utility. He stated that the parish disconnects the sewer in the parish right-of-way and does not go onto the property itself.

Mr. Jackson stated that it is incumbent upon the landlords to make sure that the tenants are paying their utilities. He stated that the reconnect charge for sewer services is approximately \$3,000.00. Mr. Jackson stated that the moratorium on evictions due to the COVID-19 health crisis is being addressed on Friday, June 5, 2020, in the opening of Phase 2. He stated that currently, the lessee is not in violation of the terms of Mr. Knight's lease agreement because he is current on his lease payments.

Ms. Irby stated that she was just informed that the parish does in fact own the water service at this location and therefore the parish can shut the water off at 3320 Trailview Circle, Haughton, LA, for any future delinquencies.

After further discussion, **motion was made by Mr. Salzer, seconded by Mr. Marsiglia, to uphold the recommendation of the Consolidated Waterworks/Sewerage District No. 1 Board of Appeals, that a letter be sent to Ms. Tanikqa Thomas at 3320 Trailview Circle, Haughton, LA, stating that due to her recent payment in the amount of \$300.00 on June 2, 2020, towards her past due amount, it is requested that a payment arrangement be made immediately in order to bring her account current or sewer service will be disconnected 10 days from the date of the letter.**

The Chairman called for public comment. There being none, **votes were cast, and the motion carried unanimously.**

Ms. Irby provided the board with information for Ms. Shanitha Glover at 3120 Halls Trail, Haughton, LA. No one was present on behalf of the customer to discuss this matter. Ms. Irby stated that Ms. Thomas has agreed to a payment arrangement to pay off the past due amount. She stated that there was an apparent leak at 3120 Halls Trail, Haughton, LA, and Ms. Glover has requested that a leak adjustment be made to her account. Mr. Salzer stated that a receipt would be required from a plumber confirming that there was in fact a leak at this address, and that the leak has been repaired. Ms. Irby stated that Consolidated Waterworks/Sewerage District No. 1 of the Parish of Bossier owns the water service at 3120 Halls Trail, Haughton, LA.

Ms. Irby recommended that customers be allowed two leak adjustments. She recommended that a leak adjustment be approved for Ms. Glover by taking one-half of the sewer usage and one-half of the water usage on the two highest bills and credit Ms. Glover's account with those amounts.

Mr. Salzer stated that it is the recommendation of the Board of Appeals to accept payment arrangements for Ms. Shanitha Glover at 3120 Halls Trail, Haughton, LA, with the recommended leak adjustment credit, subject to a receipt being received from a plumber confirming that there was in fact a leak at this address and that it has been repaired. This matter will be reviewed at a hearing on July 1, 2020, at 12:00 p.m. in the Bossier Parish Police Jury meeting room.

**Motion was made by Mr. Salzer, seconded by Mr. Marsiglia, to uphold the recommendation of the Consolidated Waterworks/Sewerage District No. 1 Board of Appeals, to accept payment arrangements in the amount of \$100.00 per week to be applied to the past due amount until paid in full, in addition to the monthly average bill, for Ms. Shanitha Glover at 3120 Halls Trail, Haughton, LA, and allow a credit adjustment for leakages, subject to a receipt being received from a plumber confirming that there was in fact a leak at this address and that it has been repaired.**

She further stated that Ms. Stemple has made no effort to establish a payment arrangement and recommended that the sewer service be disconnected. Mr. Salzer stated that it is the recommendation of the Board of Appeals to disconnect sewer service at 312 Blue Fox Circle, Haughton, LA, resulting in the home being condemned and uninhabitable, unless payment of \$695.96 is received within 10 days. The customer will be responsible for any fees associated with the reconnection of sewer service. Sewer service will be disconnected on or about June 15, 2020.

The President called for public comment. There being none, **votes were cast, and the motion carried unanimously.** This matter will be reviewed at a later date.

Ms. Irby provided the board with information for Mr. Darren C. Giles at 3302 Heatherbrook Lane, Haughton, LA. No one was present on behalf of the customer to discuss this matter. She stated that the last payment received by Mr. Giles was in November of 2019, and a past due amount of \$666.14 is owed. She further stated that Mr. Giles has made no effort to establish a payment arrangement and recommends that the sewer service be disconnected. Mr. Salzer stated that it is the recommendation of the Board of Appeals to disconnect sewer service at 3302 Heatherbrook Lane, Haughton, LA, resulting in the home being condemned and uninhabitable, unless payment of \$666.14 is received within 10 days. Ms. Irby provided the board with information for Mr. and Mrs. James Dibler at 3409 Wildbriar Circle, Haughton, LA. No one was present on behalf of the customer to discuss this matter. Ms. Irby stated that Ms. Dibler advised that Mr. Dibler passed away in March of 2020, and she was not aware that the utility was not being paid. She stated that Ms. Dibler has agreed to a payment arrangement in the amount of \$80.00 per month which would be the total amount to be applied to the past due amount of \$644.77 and the monthly average amount. Ms. Irby recommended that the payment arrangement be increased to \$120.00 per month.

Mr. Salzer stated that it is the recommendation of the Board of Appeals to accept payment arrangements for Ms. Dibler at 3409 Wildbriar Circle, Haughton, LA, in the amount of \$120.00 per month to be applied to her past due amount of \$644.77 and monthly average amount. The Chairman called for public comment. There being none, **votes were cast, and the motion carried unanimously.** This matter will be reviewed at a later date.

Mr. Jackson stated that a time period needs to be established for customers to pay off their delinquent accounts. He stated that allowing more than six months for a customer to pay their delinquent accounts in full is not recommended. He recommended that a protocol be established which does not allow any payment arrangement for Consolidated Waterworks/Sewerage District No. 1 of the Parish of Bossier customers with past due accounts that does not cover the current monthly amount as well as an amount to be applied to the past due amount in order to pay the past due amount in full in a six month time period.

Mr. Salzer recommended that when the billing department is discussing payment arrangements with a customer, the customer be advised at that time how the payment arrangement calculations work, and what requirements will need to be met in order to allow the customer to schedule payment arrangements for their past due amount. There was further discussion regarding requirements for payment arrangements for customers with delinquent accounts.

Mr. Jackson stated that other utility companies allow customers to donate funds to an Enterprise Fund to assist customers who have been deemed impoverish or meet certain thresholds with the payment of their utility bills. He stated that parish finance agreements with financial institutions for the sewer district require the parish to charge what the service cost, and the police jury determined that it would not subsidize sewer and water bills and would not take into consideration special circumstances. He stated that if the Board of Supervisors for Sewer District No. 1 of the Parish of Bossier wishes to revisit taking special circumstances into consideration on delinquent accounts, it can be addressed at a later time. Mr. Salzer recommended that the Board of Supervisors consider allowing customers to donate to an Enterprise Fund and take special circumstances into consideration on delinquent accounts.

No action was taken.

Mr. Salzer asked what recourse the Board of Supervisors for Sewer District No. 1 of the Parish of Bossier has when a tenant moves out of the rental home and owes a past due balance for water and/or sewer services. He asked if the property owners should be held accountable for the delinquent accounts. Mr. Jackson stated that it would be a policy decision by the board to determine if the property owners are to be held accountable for the tenants' delinquent accounts. He stated that the board has been focusing on collecting past due amounts from current customers, and if the delinquent

account belongs to a non-current customer, the account is transferred to a debt collection and attempts will be made to locate the delinquent account holder. Mr. Jackson stated that the non-current account holder who has a delinquent account will be unable to obtain water or sewer service from the parish, and if the non-current account holder cannot be located, those debts will have to be written off.

Ms. Irby provided the board with information for Mr. Garrett Seaman at 8417 Woodhill Lane, Haughton, LA. Mr. Seaman was present. He stated that he contacted the billing department in March of 2020 and left a voicemail to discuss his account, and contacted the billing department each time he received a letter and left voicemails, but there has been no return call to date. He further stated that he made a payment of \$300.00 on his account, and has attempted to set up a payment plan, but no one has returned his call. Mr. Seaman stated that he made a payment in the amount of \$150.00 in March and May of 2020.

Ms. Irby stated that the account does not reflect the \$300.00 payment. Mr. Seaman stated that he does have proof of the \$300.00 payment. Mr. Salzer stated that Mr. Seaman's account needs to be reviewed to determine why the payments are not being posted to his account.

Ms. Gill stated that Mr. Seaman's account shows a payment of \$150.00 on February 20, 2020, but does not show that a payment was made on May 24, 2020, in the amount of \$150.00. She stated that Mr. Seaman did leave voicemails on Saturdays and when she tried to return his call during the work week, she received a recording stating that his voicemail was full.

Mr. Salzer requested that Ms. Irby meet with Mr. Seaman after today's meeting and verify the \$150.00 payment on May 24, 2020, and see if a determination can be made as to why payments are not being posted to his account. No action was taken.

**Motion was made by Mr. Rodgers, seconded by Mr. Marsiglia, to adopt a resolution accepting design waivers and exceptions for State Project No. H.013129.6, Federal Aid Project No. H013129, Linton Road Bridge over Black Bayou Reservoir project, and to authorize the execution of documents.**

The President called for public comment. Mr. Bob Basinger, Fort & Tablada, Inc., stated that the letting date for the Linton Road Bridge over Black Bayou Reservoir project is November 18, 2020, but the State has requested that the police jury adopt a resolution accepting design waivers and exceptions for said project. He stated that the design waiver is for the use of a 50-foot guardrail at the northeast corner and a 75-foot guardrail at the remaining three corners of the bridge in lieu of the 87-foot 6-inch guardrail as shown in the latest Off-System Bridge Guardrail Standard Plan for tangent guard rails.

Mr. Basinger provided additional information supporting the need for the design waiver on the Linton Road Bridge over Black Bayou Reservoir project.

Mr. Basinger stated that the request for design exceptions is for the transition portion of the new roadway to the existing roadway. He stated that at each end of the bridge the roadway is 24 feet wide with two 12-foot lanes. He further stated that the existing roadway is not exactly 24 feet wide and the roadway does not have an exact 2 ½ percent slope on each side which is required by the standard Department of Transportation and Development requirements, and therefore the State is requiring design exceptions for the transition phase of the new roadway to the existing roadway.

**Votes were cast and the motion carried unanimously.**

## RESOLUTION

BE IT RESOLVED by the Bossier Parish Police Jury in regular and legal session on this 3<sup>rd</sup> day of June, 2020, that it does hereby accept the following design waivers and exceptions for State Project No. H.013129.6, Federal Aid Project No. H013129, Linton Road Bridge over Black Bayou Reservoir project:

DESIGN WAIVER:

The use of 50' guard rail at northeast corner and 75' guard rail at the other three corners in lieu of 87' 6" shown in the latest Off-System Guard Rail Standard Plan for Tangent Guard Rail.

DESIGN EXCEPTIONS:

(To match existing conditions and transition to requirements in the 2017 Minimum Design Guidelines)

1. The use of 10.3' to 11.1' lane width at the tie-in to existing.
2. The use of a 0' shoulder width at the tie-in to existing.
3. The use of a travel lane cross slope not equal to 2.5 percent at tie-in to existing (varies from 1.6 percent to 3.1 percent).

BE IT FURTHER RESOLVED that William R. Altimus, Parish Administrator, or Jimmy Cochran, President, is hereby authorized to execute any and all documents in connection with said design waivers and exceptions.

This resolution was offered by Mr. Rodgers, seconded by Mr. Marsiglia. Upon unanimous vote, it was duly adopted on this 3<sup>rd</sup> day of June, 2020.
